

# PROSEPT® Spray – Ready-to-use solution for the quick and comprehensive disinfection of non-invasive medical devices.

## PROSEPT® Spray

PROSEPT® Spray is a ready-to-use disinfection and cleaning product for non-invasive medical devices such as examination tables, dental treatment units, and medical appliances. Thanks to its time-proven combination of ethanol and 1-propanol, PROSEPT® Spray offers a broad effective spectrum and a very short contact time. The low content of volatile organic compounds (VOC) of less than 50% prevents cracking of the disinfected surfaces and reduces skin and breathing problems common with disinfectants containing a high alcohol percentage. PROSEPT® Spray is free of aldehydes and phenols and is fragrant with a pleasant lemon perfume.

### Your Benefits

- ▶ **Alcohol content of less than 50%**  
The disinfectant is particularly suitable for use on sensitive surfaces such as artificial leather covers.
- ▶ **Ergonomically designed bottle**  
The ergonomically designed bottle ensures a safe and easy application of the disinfectant.
