1 Identification of the substance / mixture and of the company / undertaking

1.1 Product identifier

PROSEPT® Gel

1.2 Relevant identified uses of the substance or mixture and uses advised against

PROSEPT® Gel is a ready-to-use, hydroalcoholic gel that was specially formulated for hygienic and surgical hand and forearm disinfection. The optimized ratio of the different alcohols provides a broad effective spectrum within only 30 seconds. A selection of premium skincare and protective agents retains the moisture of the skin and helps to maintain the skin in a healthy condition. PROSEPT® Gel prevents drying of the skin and leaves the hands feeling silky even after frequent use. This hand disinfectant is free of solid biocidal substances, dyes, and fragrances and therefore, the risk for allergies or skin irritation is low. PROSEPT® Gel is of low viscosity and non-sticky for an easy and pleasant application.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Address: Hygiene360 AG
Büelstrasse 17
8330 Pfäffikon ZH
Switzerland

Telephone: Switzerland +41 (0)44 226 44 99
Fax: Switzerland +41 (0)44 226 44 66
E-Mail: info@hygiene360.com
Website: www.hygiene360.com

Downstream users / importer / distributor

Address: Hygiene360 AG
Büelstrasse 17 8330 Pfäffikon ZH

Telephone: +41 (0)44 226 44 99
Fax: +41 (0)44 226 44 66
E-Mail: info@hygiene360.com
Website: www.hygiene360.com

EU only representative

Address: Medical OCC Deutschland GmbH
Wickhofstrasse 12
13467 Berlin
Germany

Telephone: Germany +49 (0)30 1207 61 18
E-Mail: info@oroclean.com
Website: www.oroclean.com

1.3.1 Person responsible for preparing the MSDS

Ms Wong Lee Moi
Research & Development Manager
E-Mail: leemoi.wong@hygiene.com

1.4 Emergency telephone numbers

Emergency information: +41 (0)44 512 49 89
Toxicological center*: +41 (0)44 251 51 51 (Switzerland)

* Please check the above numbers regularly as they might be subject to change.

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)
Version: 5.0.0 | Date: 09.06.2016 | Replaces version: 4.1.0 | Date: 01.06.2015 | English

Page 2 of 12

2 Hazards identification

2.1 Classification of the substance or mixture

2.1.1 Classification according to Regulation (EC) No 1272/2008

Hazard classes and categories	Hazard statements:	Classification procedure
Flam. Liq. 2	H225 Highly flammable liquid and vapour.	On basis of test data.
Eye Dam. 1	H318 Causes serious eye damage.	Harmonised (legal) classification.
STOT SE 3	H336 May cause drowsiness or dizziness.	Harmonised (legal) classification.

2.2 Label elements

2.2.1 Labeling of the mixture according to Regulation (EC) No 1272/2008

Hazard pictograms:

GHS02

GHS07

GHS05

Signal word:
Danger

Hazard statements:

H225	Highly flammable liquid and vapour.
H318	Causes serious eye damage.
H336	May cause drowsiness or dizziness.

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)
Version: 5.0.0 | Date: 09.06.2016 | Replaces version: 4.1.0 | Date: 01.06.2015 | English

Page 3 of 12

Precautionary statements:

P210	Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P233	Keep container tightly closed.
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.
P280	Wear eye and face protection.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P501	Dispose of contents/container in accordance with relevant regulations.

Supplemental hazard information (EU):

– No supplementary labelling requirements according to Regulation (EC) 1272/2008.

2.3 Other hazards

This mixture does not meet the PBT/vPvB criteria of REACH, annex XIII.

3 Composition / information on ingredients

3.1 Substances

This product is a mixture (see section 3.2).

3.2 Mixtures

3.2.1 Hazardous ingredients

Classification according to Regulation (EC) No 1272/2008

Name	CAS number	EINECS number	Index number	REACH number	Hazard categories	Hazard statements	Concentration
Ethanol	64-17-5	200-578-6	603-002-00-5	01-2119457610-43-0350	Flam. Liq. 2	H225	50% - 100%
Propan-1-ol	71-23-8	200-746-9	603-003-00-0	05-2115478940-37-0000	Flam. Liq. 2, Eye Dam. 1, STOT SE 3	H225, H318, H336	15% - < 30%
Propan-2-ol	67-63-0	200-661-7	603-117-00-0	05-2115478264-41-0000	Flam. Liq. 2, Eye Irrit. 2, STOT SE 3	H225, H319, H336	2.5% - < 5%

3.2.2 Additional information

For the full wording of the listed R- and H-phrases see section 16.

4 First aid measures

4.1 Description of first aid measures

ENB5D4415930

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)
Version: 5.0.0 | Date: 09.06.2016 | Replaces version: 4.1.0 | Date: 01.06.2015 | English

Page 4 of 12

4.1.1 General instructions

Ensure self-protection. Wear appropriate personal protective equipment. Immediately remove contaminated clothing. Bring any person out of the danger zone. In case of unconsciousness or danger of loss of consciousness immediately seek medical attention and administer first aid measures. First aid measures should be administered by a trained person. When seeking medical attention show this material safety data sheet.

4.1.2 After inhalation

Ensure self-protection against product vapors or aerosols. Move any person involved from exposure area to fresh air. Do not leave the person(s) alone. Seek medical attention if breathing becomes difficult or if cough or other symptoms develop. Loosen tight clothing such as a collar, tie, belt or waistband.

4.1.3 After skin contact

No special action required.

4.1.4 After eye contact

Immediately flush out eyes with plenty of running water, while separating eyelids with fingers, for at least 15 minutes or as long as irritation continues. Remove contact lenses, if present, after first 5 minutes, and then continue rinsing eyes. Do not allow victim to rub eyes or keep them closed. Always immediately seek medical attention and consult an ophthalmologist, even if there is no apparent damage.

4.1.5 After ingestion

Rinse mouth with water and make victim drink plenty of water. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward and give water again. Do not attempt to give anything to a semi-conscious or unconscious person. Immediately seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

The following symptoms may occur: skin and eye redness, nausea, vomiting, abdominal pain, respiratory paralysis, dizziness, unconsciousness, impaired consciousness, central nervous system depression.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5 Firefighting measures

5.1 Extinguishing media

5.1.1 Suitable extinguisher

Water spray, carbon dioxide, alcohol-stable foam, solid extinguishing agents.

5.1.2 Unsuitable extinguisher for safety reasons

Water jet.

5.2 Special hazards arising from the substance or mixture

Burning material may release dense smoke containing irritating and/or toxic gases, vapours and/or fumes. Vapours may form explosive mixtures with air.

5.3 Advice for firefighters

5.3.1 Protective device for firefighting

Use suitable respiratory equipment.

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)
Version: 5.0.0 | Date: 09.06.2016 | Replaces version: 4.1.0 | Date: 01.06.2015 | English

Page 5 of 12

5.3.2 Further indications

Do not inhale any explosion or fire fumes. Take appropriated fire-fighting measures regarding the whole fire. Any fire substance and contaminated fire-fighting water have to be disposed according to instructions of the local authority.

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear suitable protective equipment. Ensure adequate ventilation. Eliminate all sources of ignition. Do not open the primary container unless authorised to do so. Restrict access to area until completion of cleanup.

6.2 Environmental precautions

Contain spill with absorbent material, such as sand, vermiculite or universal binding material.

6.3 Methods and material for containment and cleaning up

Stop leak if safe to do so. Small spills: Absorb with an inert material and place in an appropriately labeled waste disposal container. Large spills: Collect for later disposal according to local, provincial, state or federal regulations. For disposal considerations please see section 13. Use cold water rinse for final clean-up.

6.4 Reference to other sections

For instructions for safe handling, disposal, and personal protection equipment see sections 07, 08, and 13.

7 Handling and storage

7.1 Precautions for safe handling

Read product instructions before use. Wear suitable protective equipment (please see section 08). Open container carefully. Avoid breathing fumes / aerosols. Avoid contact with eyes and mucous membranes. Do not mix with other products. Retain all warning and identity labels.

7.1.1 Instructions for protection against fire and explosion

Keep away from sources of ignition. No smoking. Keep away from heat. While working with the product volatile and flammable components may be liberated. Vapours may form an explosive mixture with air.

7.1.2 Advice on general occupational hygiene

Do not eat, drink, or smoke while working. Do not wear jewellery. Before breaks and after work wash hands thoroughly. Use cream to care for your skin. Handle the product in accordance with good industrial hygiene and safety practices.

7.2 Conditions for safe storage, including any incompatibilities

7.2.1 Requirements for storage room and containers

Keep out of reach of children and persons unfamiliar with proper product use. Keep in the original container only. Do not use empty container with any other product or for any other purpose. Full pallets must not be stacked. Ensure dense floor covering which is resistant against acids, bases and solvents. Use ground tub without waste-draining.

7.2.2 Further information about storage conditions

Keep container tightly closed. Store at room temperature. Keep from freezing and temperatures greater than 30°C. Store in a dry and well-ventilated place. Do not store for prolonged periods in direct sunlight. The user has sole responsibility for acquaintance and compliance with the regulations.

7.2.3 Stocking with different products

Store separately from beverages, food and feed. Store separately from strong acids, bases and oxidation agents.

Page 6 of 12

7.3 **Specific end use(s)**
See section 01 or technical data sheet.

8 Exposure controls / personal protection

8.1 **Control parameters**

8.1.1 **Components with occupational exposure limit values**

Substance	CAS number	Long term limit values (mg/m ³)	Short term limit values (mg/m ³)
Ethanol	64-17-5	960 (MAK CH; SUVA 2015).	1920 (4x15 min.; STEL CH; SUVA 2015).
Propan-1-ol	71-23-8	500 (MAK CH; SUVA 2015).	No short-term exposure limit (CH; SUVA 2015).
Propan-2-ol	67-63-0	500 (MAK CH; SUVA 2015).	1000 (4x15 min.; STEL CH; SUVA 2015).

8.1.2 **Components with biological limit values**

Substance	CAS number	Limit values (mg/m ³)
Ethanol	64-17-5	No biological limit values.
Propan-1-ol	71-23-8	No biological limit values.
Propan-2-ol	67-63-0	No biological limit values.

8.2 **Exposure controls**

8.2.1 **Appropriate engineering controls**
See section 07. No additional measures necessary.

8.2.2 **Personal protective equipment**

Eye / face protection:
Not required during normal use.

Skin protection:

Hand protection
Not applicable.

Other
Not required during normal use.

Respiratory protection:
Do not inhale gas/vapours/aerosol.

General protection measures:
Avoid contact with eyes.

Material Safety Data Sheet

- 8.2.3 **Environmental exposure controls**
Observe the usual precautions for handling chemicals.

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

9.1.1 General information

Colour: Colourless

Physical state: Clear, slightly viscous gel

Scent: Of alcohol

9.1.2 Important health, safety and environmental information

pH-value: Neutral

pH-value in aqueous solution: Not applicable (ready-to-use solution)

Melting point (°C): No data available.

Boiling point (°C): No data available.

Flash point (°C): 21

Flammability: The product is highly flammable.

Explosive properties: Vapours may form an explosive mixture with air.

Lower explosion limit (%): Not applicable.

Upper explosion value (%): Not applicable.

Oxidizing properties: The product has no oxidizing properties

Vapor pressure (kPa): No data available.

Relative density (g/cm³): 0.9

Solubility / Miscibility: Fully miscible with water

Partition coefficient n-octanol/water (log Pow): Not applicable.

Viscosity (mPas): No data available.

Vapor density in relation to water: No data available.

Evaporation rate: No data available.

Auto-ignition temperature (°C): This product does not possess autoignition properties.

Decomposition temperature (°C): Not applicable.

9.2 Other information

Conductivity (mS/cm): No data available.

The temperature and / or pressure sensitive values are normalized to 20 °C and 1013 hPa.

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)

Page 8 of 12

10 Stability and reactivity

10.1 Reactivity

The mixture is not reactive.

10.2 Chemical stability

Stable at normal temperatures and pressure at least up to the expiry date printed on the container. Contact with open flame may cause ignition.

10.3 Possibility of hazardous reactions

No hazardous reactions such as polymerization are expected.

10.4 Conditions to avoid

Avoid heat, flames, sparks and other sources of ignition. Containers may rupture or explode if exposed to intense heat. Avoid conditions beyond those mentioned in section 07.

10.5 Incompatible materials

Avoid contact with materials sensitive to alcohols.

10.6 Hazardous decomposition products

No dangerous decomposition products occur under normal storage and use.

11 Toxicological information

11.1 Information on toxicological effects

11.1.1 Acute oral toxicity

LD50 (rat) > 5000 mg/kg

11.1.2 Acute dermal toxicity

No data available.

11.1.3 Acute inhalative toxicity

No data available.

11.1.4 Skin / mucosa irritation and corrosivity

No irritation is expected.

11.1.5 Eye irritation and corrosivity

Risk of serious damage to eyes.

11.1.6 Sensitization

No sensitization is expected.

11.1.7 Repeated dose toxicity

This product exhibits no known chronic toxicity.

11.1.9 CMR-Effects (carcinogenicity, mutagenicity and reproductive toxicity)

This product contains no ingredients with known carcinogenicity, mutagenicity or reproductive toxicity effects.

ENB5D4415930

Material Safety Data Sheet

PROSEPT® Gel

Material Safety Data Sheet according to Regulation (EC) No 1907/2006 (REACH)

Page 9 of 12

11.1.10 Additional advice on toxicology

The product was classified in toxicological terms on the basis of the results of the calculation procedure outlined within Regulation (EC) No. 1272/2008 (CLP). There are no data from toxicological tests regarding the entire product. The values for acute toxicity, irritation and sensitization on skin and mucosa and for the mutagenic potential of the product were estimated based on available data on product ingredients. There is a lack of relevant data for some ingredients. According to the experience of the manufacturer, no dangers other than the ones declared on the label are to be expected.

12 Ecological information

12.1 Toxicity

The release of amounts present in our packaging is not expected to have any ecotoxic effects. The release of several packages of this product can have temporary and localized toxic effects on aquatic and terrestrial organisms. This product is not expected to negatively affect the function of sewage treatment plants. There is no data available from ecotoxicological tests regarding the entire product. The ecotoxicological risk has been estimated based on available data on product ingredients and concentrations, where available.

12.2 Persistence and degradability

The product ingredients possess good biodegradation properties. Based on available data, the biodegradability in sewage treatment plants can be categorized as high. High product concentrations can affect the biodegradability potential of the activated sludge. Obtain the consent of the local authorities before discharging the concentrated solution to wastewater treatment plants.

Biodegradation of relevant substances in the mixture

Substance	CAS number	Biodegradation
Ethanol	64-17-5	94 % (Method OECD 301 E).
Propan-1-ol	71-23-8	75 % (20 d, readily biodegradable).
Propan-2-ol	67-63-0	95 % (21 d, readily biodegradable).

12.3 Bioaccumulative potential

Based on available data, no product ingredient is expected to exhibit bioaccumulative potential.

12.4 Mobility in soil

The product is not expected to be mobile over long distances because all product ingredients possess good biodegradability. Surface tension and absorption / desorption kinetics are not relevant to the product.

12.5 Results of PBT and vPvB assessment

This product does not contain a PBT-/vPvB-substance according to REACH, Annex XIII.

12.6 Other adverse effects

The product contains no ingredients with ozone depletion potential or global warming potential. The product contains no heavy metals or their compounds as defined in 2006/11/EG. The product contains no absorbable organic halogens (AOX). The product contains volatile organic compounds (VOC).

13 Disposal considerations

13.1 Waste treatment methods

13.1.1 Disposal of product

Dispose of according to national and regional provisions. Waste code EWC Nr: 070699 (Group: waste material of MFSU from fats, lubricants, soaps, detergents, disinfectants and personal protection products). Small amounts of the product (up to about 500 ml per day) can be disposed of via the sewage system after dilution 1:5 with tap water.

13.1.2 Disposal of contaminated packaging

Empty packaging can be treated like household waste or recycled after cleaning with water. Handle the packaging containing the product in the same way as the product itself. Where available, references to local regulations regarding disposal are given in section 15 of the MSDS. The user has sole responsibility for acquaintance and compliance with the applicable regulations.

15 Regulatory information

- 15.1 **Safety, health and environmental regulations/legislation specific for the substance or mixture**
The product has been classified and marked in accordance with Regulation (EC) No.1272/2008 (CLP). The product complies with requirements of Regulation (EC) No. 1907/2006 (REACH), Regulation (EC) No. 648/2004 (Detergents Regulation), Regulation (EU) No. 528/2012 (Biocides Regulation), and Directive 93/42/EC (Medical Devices Directive) if applicable.
- 15.1.1 **National regulations**
For further information, please refer to local law.
- 15.2 **Chemical safety assessment**
Chemical safety assessments for substances in this mixture were not carried out.

16 Other information

List of relevant R-phrases, hazard statements, safety phrases and/or precautionary statements

H225	Highly flammable liquid and vapour.
H318	Causes serious eye damage.
H336	May cause drowsiness or dizziness.
H319	Causes serious eye irritation.

Training advice

Thoroughly read this material safety data sheet before using this product. For detailed information refer to the technical data sheet.

Sources of key data

The material safety data sheets from suppliers of ingredients, scientific literature, as well as the current regulations were used as a basis for the preparation of this material safety data sheet.

Indication of change	Reason for revision
1.3.1 Person responsible for preparing the MSDS	Change in company contact information
1.4 Emergency telephone numbers	Change in emergency contact information.
2.2.1 Labelling according to Directive 1999/45/EC	Adaptation.
13.1.1 Disposal of product	Adaptation.
15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture	Adaptation to change in regulations.
16 Other information	Adaptation to change in regulations.

Abbreviations and acronyms

Abbreviations and acronyms used in this document can be looked up on www.wikipedia.org.

Further information

The information in this material safety data sheet is based on the present state of the Manufacturer's knowledge and experience. This information is given for safety reasons only. It is given in good faith and shall not constitute a guarantee for any specific product properties. The information does not imply a legally valid contractual relationship. Users should make their own investigations to determine how suitable the information provided in this material safety data sheet is for their own purposes. It is the responsibility of the user to comply with all applicable laws and regulations. Any use of the product which does not conform to this material safety data sheet or which involves using the product in combination with any other products or processes is the responsibility of the user. The data in sections 04 to 08 and 10 to 12 refer in part to the release of large quantities and not to the proper product application or use. The information in this material safety data sheet should be provided to all those who will use, handle, store, transport or otherwise be exposed to this product. No responsibility is taken as to the accuracy or the completeness of the provided information in all cases.
