

## PROSEPT® Wipes – The ready-to-use wipes for the quick, broad, and residue-free disinfection of surfaces.

### PROSEPT® Wipes

PROSEPT® Wipes are pre-moistened, single-use wipes made of tear-resistant, non-woven material. PROSEPT® Wipes are perfectly suitable for the quick and easy disinfection and cleaning of surfaces of medical devices such as examination tables, dental treatment units, medical appliances, and non-invasive instruments. The carefully balanced formulation based on alcohols offers a broad effective spectrum and short contact times even in the presence of high organic contamination such as blood or saliva. The low content of volatile organic compounds (VOC) of less than 50% minimizes skin and breathing problems, provides excellent material compatibility, and results in residue-free drying. PROSEPT® Wipes are free of aldehydes and phenols and are biodegradable. The convenient refill pouches ensure an economical and efficient disinfection. Dermatologically tested.

### Your Benefits

- ▶ **Ready-to-use disinfectant wipes**  
The use of wipes eliminates the need for spray disinfection, which can cause respiratory tract, eye, and nose irritation.
- ▶ **Highly saturated wipes**  
The disinfectant wipes remain moist for up to half a year in a tightly closed box.
- ▶ **Residue-free drying.**  
Leaves no streaks, which means additional wiping is not needed.

### Effective Spectrum / Exposure Times

Bactericidal (1,6)	15 seconds
Antibiotic-resistant bacteria (2)	15 seconds
Tuberculocidal (3)	60 seconds
Mycobactericidal (3)	60 seconds
Yeasticidal (4,6)	15 seconds
Antibiotic-resistant yeasts (5)	15 seconds
Limited spectrum virucidal (8,11)	15 seconds
BVDV (7,11)	15 seconds
Coronavirus (9,11)	15 seconds
Hepatitis B virus (11)	15 seconds
Hepatitis C virus (10,11)	15 seconds
Herpes simplex virus type 1 (7,11)	15 seconds
HIV (11)	15 seconds
Influenza A virus H3N2 (7,11)	15 seconds
Vaccinia virus strain Ankara (MVA) (11)	15 seconds
Virucidal (11,12)	60 seconds
Adenovirus type 5 (11)	60 seconds
Norovirus MNV (11)	60 seconds
Poliovirus type 1 Lsc-2ab (11)	60 seconds
Rotavirus strain Wa (11)	30 seconds

(1) EN 13727 (2) *A. baumannii*, ESBL, *K. rhizophila*, MRSA, VRE, (3) EN 14348, (4) EN 13624 (5) CaDR, (6) EN 16615, (7) RKI/DVV guidelines, (8) active against all enveloped viruses, (9) FCoV surrogate virus, (10) BVDV surrogate virus, (11) EN 14476, (12) active against all enveloped and non-enveloped viruses.

### Delivery Forms

OD-041079	Refill pouch with 120 disinfectant wipes (14.5 x 20 cm), classic scent
OD-041084	Refill pouch with 120 disinfectant wipes (14.5 x 20 cm), lemon scent
OD-091061	PROSEPT® Wipes Tub T1 (empty tub), (OD-041079, OD-041084, OD-042081)

### Easy to Use

- ▶ For your protection, wear disposable gloves.
- ▶ Before use, cut open the refill pouch. Pull the first wipe at the heart of the roll through the star-shaped opening in the lid.
- ▶ Close the wipes box firmly after each use.
- ▶ Use the wipe to completely moisten the surface or medical device to be disinfected.
- ▶ Remoisten PROSEPT® Wipes with PROSEPT® Spray if required.
- ▶ Follow contact times.
- ▶ If necessary, dry the surface with a clean single-use cloth.
- ▶ Before first time use, test material compatibility by applying the product to a small inconspicuous area.
- ▶ Use only on alcohol compatible materials.

### Time of Application

- ▶ After every treatment, disinfect all surfaces within a radius of 2 m from the dental chair, including outer surfaces of handpieces and contra-angles.
- ▶ In case of visible contamination with blood or other potentially infectious material, immediately clean and disinfect all contaminated areas or objects.
- ▶ Disinfect all surfaces in the treatment room once daily.

### Important Advice

- ▶ Close the wipes box firmly after each use.
- ▶ Use wipe instead of spray disinfection whenever possible to prevent aerosol formation.
- ▶ Use only on alcohol compatible materials.
- ▶ Before first time use, test material compatibility by applying the product to a small inconspicuous area.
- ▶ Single-use cloths made of recycled paper often harbour an elevated number of germs and should therefore, be avoided.

### Tips

- ▶ Keep the treatment room as tidy as possible to facilitate the disinfection.
- ▶ Use PROSEPT® Spray to remoisten the wipes if necessary, product to a small inconspicuous area.

### Relevant Physical and Chemical Properties

Colour:	Colourless
Physical state:	Liquid absorbed on fleece
Scent:	Of alcohol
pH-value:	Neutral
pH-value in aqueous solution:	Not applicable (ready-to-use solution)
Flammability:	The product is flammable
Relative density (g/cm <sup>3</sup> ):	0.9

### Composition of the moisturizing solution in 100 g

31.3 g ethanol, 16.7 g 2-propanol

### Shelf Life

Unopened container:	36 months
Unused working solution:	Not applicable
Working solution in use:	Not applicable

The shelf life of the product is subject to correct storage and transportation conditions and the use of original containers. Keep containers tightly closed.

### Warning

H228 Flammable solid. H319 Causes serious eye irritation. P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P233 Keep container tightly closed. P280 Wear protective gloves and eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention. P501 Dispose of contents/ container in accordance with relevant regulations.
